Project registration link

Version 1.0, 15th May 2024.

Please register your project following this link:

Please remember these two important rules (which last year were the main reasons for proposals not being accepted):

1. If you choose a *an individual project*, **a motivation is mandatory**.
2. If you are *a group of two or three* people, **ALL the members of the group should individually register!** For a group of two people, I expect two entries of the form, each one confirming the name of the other and the topic of the project. For a group of three people, I expect three entries of the form, each one confirming the names of the other two members, and the project topic. This is the only way I have to be sure that each member of the group agrees with the others.

Form can be compiled starting from Monday, May 20th.
